LONDON, UK – 11 October 2011. Invenio announced today that it has been awarded the SAP Gold Channel Partner status – the highest level of recognition attainable within the SAP PartnerEdge Programme. Invenio joined the SAP PartnerEdge Program in January 2011 and, through an exclusive focus on the delivery of SAP solutions and services, and ongoing investment in offering expanded SAP capabilities, the company has moved through the programme levels to Gold Partner status in just nine months.

SAP Gold Channel Partners are recognised by the programme as experts who deliver robust, highly functional SAP solutions across the entire customer engagement lifecycle - through sales, implementation services and support, system design and operational support for their customers.

Partho Bhattacharya, Invenio's Managing Director commented "The SAP Gold Partner status is a great achievement for everyone at Invenio. It underlines the quality of the SAP solutions and services we deliver to our customers, and credit must go to the entire team at Invenio for their hard work and personal dedication in helping our customers succeed".

SAP Gold Partner status has been a team goal from the very start of Invenio's participation in the SAP PartnerEdge programme. Partho adds, "We are delighted that it has happened so quickly and we will continue to invest in our SAP PartnerEdge programme participation to ensure that we continue to excel as an SAP partner and as a participant in the SAP PartnerEdge programme". Partho concludes: "Invenio have invested in building this strategic business partnership with SAP for the benefit of our mutual customers. We look forward to reaching even greater heights in our relationship with SAP so that we can ensure our customers reap the benefits from this new partnership status."

About Invenio: Established in 2006, Invenio is an accredited SAP Value Added Reseller offering a range of SAP Services that includes global support and implementation services to customers worldwide. Headquartered in the United Kingdom, the company operates from locations in London and Reading with additional facilities in India, North America and Mauritius. With a growing international client base, the company focuses on providing affordable SAP services that enable customers to support their business operations in challenging and highly competitive trading environments. www.invenio-solutions.com
